## Modern Chiropractic Adjustments Bring Results. Here Is an Example

"To Those In Poor Health: As one who has been a critic of chiropractors, I have had occasion to come under the care of one of the modern chiropractors, Dr. J. H. Peterson, having dislocated a bone in my neck about two years ago. Several other doctors treated me for the trouble without giving relief. I have had this trouble four times, Dr. Peterson's adjustment being the sixth effort to replace the dislocated bone. I now feel that I am permanently cured and I am also convinced that this trouble has never before been adjusted as systematically and there is no doubt in my mind but that Dr. Peterson is just as competent in various other ailments as in this one."

"I can truthfully say that I am very thankful to be in a position to recommend Dr. Peterson's chiropractic treatments. I speak of this wonderful result from actual experience."

## 'CHU CHIN CHOW' BIG ATTRACTION

Musical Extravaganza Will Be Performed for Week in Salt Lake

"Chu Chin Chow," a musical extravaganza of the Orient, has its first and only Utah showing at the Salt Lake theatre commencing Monday evening December 20th. Matinees will be given on Wednesday and Saturday. "Chu Chin Chow" is now in the fifth year of its amazing run at His Majesty's theatre, London. It was produced there in 1914 by Oscar Ascher, the author, in association with the late Sir Herbert Tree, and has been presented continuously, in spite of air raids, Zeppelins, bombs, the war, and all other obstacles, holding at present the long-distance record for all of the London productions. Two years ago, F. Ray Comstock and Morris Gest, presented "Chu Chin Chow" in New York with scenery and costumes made by the original producers in London, but on a much larger scale. "Chu Chin Chow" proved a gorgeous revelation for American audiences and now the complete production and cast from the Century theatre is being presented on tour, the biggest of travelling organizations, in 14 scenes and with a company of 300 people.

"Chu Chin Chow" is a romance of ancient Bagdad of a thousand years ago and tells the story of Ah Hassen, the rubber chief who disguises himself as Chu Chin Chow, a rich Chinese merchant, and enters Bagdad to rob Kasim Baba, a wealthy miser, and to raid one slave market. His plans are foiled by Zanzibar, the desert woman, a slave who brings about his downfall, but not until 14 brilliant and wonderful scenes with music, dance and pageant have been unfolded. The music by Frederick Norton is especially alluring and tuneful and there are 15 musical hits in the score. There are 565 dazzling and brilliant costumes of many colors and a mannequin parade of fashion models of ancient Bagdad that exhibits some of the most striking costumes ever designed, one critic declaring that the whole gorgeous rainbow of colors "out-basks Leon Bakst."

In the cast will be found all of the Century Theatre company including: Marjorie Wood, Henry Latimer, Alfred Howson, Eugene Cowles, Don W. Ferrandou, Elsie Maltstad, Roy Cropper, Adelaide Blenner, Gladys Earle, Bette Carmontell, Thoral Lake, Edgar Kiefer, Roy Tracy and many others including the original ballet of sixty headed by Helen Lee.

Owing to the length of the performance and size of production the evening curtains are announced to rise at 8 p. m. and the matinees will start at 2 p. m.

## Trapping Parties to Make War on Beavers

Trapping parties under the state game department of Idaho will make a general "clean up" of beaver and beaver dams on Shoshone, Goose, Trout and Trapper creeks this winter, according to forest service announcements. The creeks and streams mentioned are either on or near the Minidoka national forest in Idaho.

The beaver and their dams are a hindrance to farmers and through the efforts of these animals, thousands of acres of irrigated water is lost or diverted, it is reported.

Lyric Music Co's, big sensational phonograph offer.  
World's best phonograph on new money-saving plan.

## Be a Violinist Yourself— Learn the Real Charm of the Graduola

YOU know the real marvel of the phonograph is that it can make itself into any instrument you want it to. If you play a violin record, it's a violin. And the same with a clarinet, flute, French horn—anything.

Now, then, we are going to play a violin record on the Vocalion, so it becomes a violin to us.

What's the real charm of the violin? Its expressiveness, its ability to voice different emotions better than any other instrument in the world.

Put this violin record on the Vocalion and take the Graduola in your hand. Now you are going to make the violin express you, as only the violin can do it.

Softly, the sweet, wistful beauty of the strings is just whispering the melody. The music thrills you through and through. It exalts you and your swelling emotion finds expression in a strong crescendo. Again you soften the music and it gradually dies down to pianissimo.

Do you know what you are doing? You are creating a personal, beautiful musical performance, that is in effect as much your own, as though the bow and violin were in your very hands.

There is no musical pleasure in the world that can compare with this. And no phonograph in the world but the Vocalion that can give you this pleasure.
